**II. Read the text carefully and then mark True (T) or False (F)**

Music is a very important part of our lives. Music is for dancing, drinking, eating, loving and thinking. Some songs remind us of our childhood or youth. Others remind us of the people we love. Many important occasions, like weddings and funerals have special music. Every nation has a national song like the American "The Star-Spangled Banner". In the U.S, high schools and colleges have school songs, too. Music is a part of the history of America. It expresses the problems and feelings of its people. When the years pass, the music grows and changes.

Modern science has also changed music. Inventions like records, radio, movies, electric instruments, tape recorders and video have changed the way we play and listen to music. They have helped to make music an important form of international communication.

American music, from the earliest folk songs to modern "pop", is known around the world. Music is one of America's most important **exports**. It brings the people of the world together. Even when people cannot understand the same language, they can share the same music. Many people learn and practice English by singing songs. Understanding American music can help you understand American people, their history and culture.

25. "The Star- Spangled Banner" is one of the American school songs.  
 26. According to the passage, music is changed thanks to the invention of videos, electric instruments and tape recorders except international communication.  
 27. The word "**exports**" in the last paragraph is nearest in meaning to **things that can be sold**.  
 28. The earliest form of music in America is national music.

| 24. A. accounts | B. amounts | C. numbers   | D. totals |

**II. Read the text carefully and then mark True (T) or False (F)**

Conservation is the sensible use and protection of natural resources including plants, animals, mineral deposits, soils, clean water, clean air, and fossil fuels such as coal, petroleum, and natural gas to ensure an adequate supply for future generation.

Natural resources are grouped into two categories, renewable and nonrenewable. A renewable resource is one that may be replaced over time by natural processes, such as fish populations or natural vegetation, or is **inexhaustible**, such as solar energy. The goal of renewable resource conservation is to ensure that such resources are not consumed faster than are replaced

Nonrenewable resources are those in limited supply that cannot be replaced or can be replaced only over extremely long periods of time. Nonrenewable resources include fossil fuels and mineral deposits, such as iron ore and gold ore. Conservation activities for nonrenewable resources focus on maintaining an adequate supply of these resources well into the future.

25. *The purpose of conservation mentioned in the passage to ensure an adequate supply of natural resources for future generations.*

26. *The word **inexhaustible** is similar in meaning to **limited**.*

27. *Natural vegetation is an example of the resource that may be replaced by natural processes.*

28. *Conservationists work to ensure that people consume resources more economically*

**D. WRITING:**

**I. Give the correct form of the words in blankets.**

29. The World Cup is followed with ..... interest around the globe. (passion) – .....

30. National parks help save ..... animals and plants and they provide natural laboratories for scientists (danger) – .....
